WRITING LEGAL DESCRIPTIONS

In Conjunction with Survey Boundary Control
Fourth Edition - Third Printing - \$40.00

This book is a must for anyone who works with or writes legal descriptions. Each of the fourteen chapters is structured for the self teaching student or for class participation. Each chapter concludes with assignments, exercises, questions and answers. Supported by extensive court citations, the author presents the material in a concise style which can be understood by the student, practitioner or attorney. The text is supported by samples, recommended forms and extensive illustrations. Chapter headings include:

- Background and Framework
- Support Information
- Description Fundamentals
- Determination of What Controls
- Boundaries - General
- Water Boundaries
- Analysis and Interpretation of Descriptions
- Monuments
- Streets
- Occupation vs. Title
- Writing Descriptions
- Easements and Rights of Ways
- Descriptions of Section Land
- Special Shape Descriptions

Hardcover; 9 x 6; 348 Pages with 133 illustrations and answers to problems.

SURVEY DRAFTING

Drafting Practices in Surveying and Engineering Offices
Third Edition - \$35.00

This book fills a need not covered by existing surveying or drafting text books. All chapters include examples of the subject matter and are supported by typical problems, assignments and solutions. This text fills the need for a college level course in the specialized area of survey drafting and mapping, while providing a technical tool and reference guide for use by the draftsman, designer or Engineer. Chapter headings include:

- Field Notes
- Plotting Traverses
- Relating Maps to Descriptions
- Lettering and Lines
- Drafting Tools
- Production of Topographic Maps
- Plan and Profile Drawings
- Cross-Section Drawings
- Earthwork Calculations
- Developing a Grading Plan
- Verticle Curves
- Special Type Maps
- Geographic Control
- Computerized Drafting

Hardcover; 9 x 6; 360 Pages with numerous illustrations and answers to problems.
